

Photographer's notes: 'once in a blue moon'

Every once in a while I am invited or get the desire to prepare a collection of images for an exhibition. Combined with the fact that I haven't shown my work in a gallery setting for a few years and considering that there are two full moons in August, it seems to be the right time... once in a blue moon indeed.

Movement was the spark and flame in my motivation to understand and capture images through photography. It has since grown into using the principles, applied techniques and media to create images based on movement or 'stillness'. Working with dancers Stephanie, Claudia, David, Angela, Jo, Renee, Erin, Kyla, Joe, Tara, Callum and Connor has been inspirational, creatively exciting and very rewarding all in the one. Not only do I get to work with these wonderful people, but as in the old days of darkroom, the photography workflow gives me another go, so to speak, at the creative side in processing and outputting the images to print.

Technically I have used a variety of cameras to capture these images. The images of Claudia, Ange and Jo were shot on film. All the others were shot using digital cameras. These include Canon 1Dm2/1Dsm2; Nikon D1h/D3s/D3x; Phase One P25/P30 and Hasselblad H4D-40/50. I would like to give a special thank you to Ben and Trevor at Team Digital and to Saul at Camera Electronic who have given unabated support in both my professional career and personal photography interests. Thanks also to deckchair theatre, Ausdance (WA), WAAPA for the kind use of studio space and Gallery 360 for their support and advice re framing. Thanks to Chrissie and Jonathan for the invitation to exhibit my work in their gallery.
